

The rugged Archer 2

WHEREVER YOUR JOB TAKES YOU

From the hammer and anvil, the Archer² has emerged faster, smarter, and more sophisticated than ever before, claiming top spot among the most advanced rugged handhelds out there. Specifically designed to boost productivity and speed, the Archer 2 was made for professionals who don't have time to mess around. Rest assured knowing you can rely on the Archer 2 to help get the work done, wherever your job takes you.

The Archer 2 incorporates all the best things about the Archer and adds to them. Featuring a new IllumiView™ high-visibility display, the Archer² remains extraordinarily bright under even the most glaring sunlight. You'll love the responsiveness of its large, glove-friendly capacitive touchscreen and numeric keypad, allowing you to input data at unprecedented speeds. And for those work days that just seem to go on and on, you can trust that the Archer²'s custom Overtime Technology™ battery will get you through, no problem. Add to this the signature ruggedness that Juniper Systems is known for, and you have one mean data-collecting machine that you can rely on, wherever your job takes you.

OVERTIME TECHNOLOGY™ BATTERY

With all of its new features and capabilities, the Archer 2 deserves to be powered by only the best of batteries. That's why its battery source is built with custom Overtime Technology™, lasting 20 hours and up on a full charge. With a battery as solid as that, you can stop worrying about your battery life and start focusing on the task at hand.

BETTER, WELL, EVERYTHING

That's right—the Archer 2 has improved on nearly every aspect imaginable. Beginning with its enlarged IllumiView™ high-visibility display, its brightness knocks people off their feet when they see it. And its capacitive touchscreen provides for needle-sharp imagery and outstanding durability.

The Archer 2 also has improved connectivity capabilities, including enhanced GPS performance, improved photo and video capture, built-in 1D/2D barcode scanner, and Bluetooth®, Wi-Fi®, cell modem, serial, and USB connectivity features. The Archer 2 is a force to be reckoned with, right down to its speedy 1.0GHz processor that runs it all.

ARCHER 2 MODELS

Standard Model:

- Wi-Fi® & Bluetooth® wireless technology

Geo Model:

- Wi-Fi® & Bluetooth® wireless technology
- GPS
- 5MP camera

Geo Cell Model:

- Wi-Fi® & Bluetooth® wireless technology
- GPS
- 5MP camera
- 3.75G GSM modem

Geo BC Model:

- Wi-Fi® & Bluetooth® wireless technology
- GPS
- 5MP camera
- Barcode scanner

Geo Cell BC Model:

- Wi-Fi® & Bluetooth® wireless technology
- GPS
- 5MP camera
- Barcode scanner
- 3.75G GSM modem

Solid data protection – IP68 rating, designed to MIL-STD-810G

Less down time – Custom battery with Overtime Technology™ lasts 20 hours and up on one charge

Stellar outdoor screen readability – IllumiView™ high-visibility display provides extraordinary screen brightness in harsh sunlight

Stay connected – Bluetooth®, Wi-Fi®, & enhanced GPS capabilities

Faster data entry – Glove-friendly, physical numeric keypad
